## Death To Violators Of Code

O'Dwyer Tells Probers of Own Court System of The Underworld

NEW YORK, March 19—(P)—Former mayor William O'Dwyer told the Senate crime committee today that he visited gambler Frank Costello in 1942.

"I saw Costello definitely at his home—possibly twice," O'Dwyer said.

O'Dwyer said he was in the army at the time.

The former mayor said he went to Costello's home to talk to him about air force contracts. O'Dwyer was serving the army in an investigating capacity.

O'Dwyer said other visitors in the Costello home at the time included Irving Sherman, Bert Stand, "Judge Savarese and Congressman Mike Kennedy." Stand and Kennedy were leaders in Tammany hall. Sherman was a close friend of Costello's.

O'Dwyer, now ambassador to Mexico, said he didn't expect to see the men there.

"They were there when I arrived," the former mayor said. "I had approximately one-half hour of conversation with Costello. They were there when I left."

Costello, a reputed underworld leader, was a bulky witness before the committee twice last week and was scheduled to appear again later today.

By Al Parks and Jim Devlin  
NEW YORK, March 19—(P)—Former Mayor William O'Dwyer told the Senate Crime committee today the underworld had its own court system that meted out death sentences to violators of the gangland code.

O'Dwyer, now ambassador to Mexico, described it as "a judicial set-up—a kangaroo court where they held trials, usually at night."

"We also found," he said, "that in certain sections of the country, there were men who carried out the orders of these courts and there would be only one order—death, execution."

O'Dwyer said in many sections of the country "they had authority to direct those troops."

"Albert Anastasia was the only one who had authority to order the Brooklyn troops," he said.

Anastasia was a suspect in a slaying attributed to Murder, Inc. Brooklyn crime syndicate. Anastasia escaped prosecution after the death of Abe Reles, a witness, in a mysterious plunge from a Coney Island hotel window in 1941.

**Calls It Combination**

Asked who was chairman of the board of directors in the underworld syndicate, O'Dwyer said, "It was rather a combination. There was no chief man in charge, a combination, an alliance."

O'Dwyer told his story of the virtual nation-wide Murder, Inc., after a sharp encounter with Sen. Charles W. Tobey (R-NH).

## 'Vet' of Civil War Dead at 105

STROUD, Okla., March 19—(P)—John Hutchinson, Oklahoma and Missouri's last Civil War veteran of the Union army, is dead at the age of 105.

Hutchinson broke his hip Jan. 12 in a fall here at the home of his daughter, Mrs. John Holdaway. He died yesterday, eleven days after returning from an Oklahoma City hospital.

Both states claim the war veteran, who joined the Union army from Ozark county, Missouri, in 1864 and has lived first in one state then the other the past 50 years.

His advice to folks who want to live to be a hundred: "Don't ever worry and lead a peaceful life."

But his life was far from quiet, especially after the age of 18 when he fibbed that he was 19 to get into the fighting.

The killing of his uncle by three Confederate soldiers in the field near his home made him eager for battle, Hutchinson explained.

The battles he describes as "just little scraps."

"They put 2,000 of us down on the Arkansas line to put down the guerrillas," he recalled. "They were all the way from little squads up to groups of 200. They camped in those White river hills—and believe me they raised plenty of Cain."

## Winter Hangs On in Northern Part Mid-west

Many Highways Blocked And Planes Were Grounded

By the Associated Press

The northern midwest was hanging on the ropes again today, virtually knocked out by another smashing blizzard.

From the appearance of many snow-blocked sections and the hardship of its victims, winter is still more like a lusty young arrival than a feeble, dying season.

Throughout the area many highways were blocked, planes were grounded and even some trains were stalled by mountainous snow drifts.

Although the fury of the storm was not as widespread as the two earlier blizzards that already had hit the region this month, it was more intense in spots. In southern Minnesota, southeastern South Dakota and northern Iowa highway traffic was blocked in many places. Trains stalled in northern Iowa.

The storm left as much as 19 inches of new snow in the area. Winds up to 45 miles an hour whipped it into deep drifts.

The storm began Saturday and continued through most of Sunday. It marooned scores of farm families in western Minnesota.

At St. Paul and Minneapolis, the snowfall measured nearly 10 inches.

**Plane Bogs in Snowdrift**

A northwest airlines plane arriving from Portland, Ore., with 17 passengers and crewmen bogged down in a snowdrift on Wold Chamberlain field at Minneapolis but all the persons escaped injury.

In northern Iowa the storm caused the tightest traffic tie-up of the winter. About 40 or 50 counties were completely blocked Sunday by deep drifts which stalled an Illinois Central railroad freight train.

The train, marooned near Carnarvon, was rammed during the storm yesterday by another freight. The engine and six cars of the second train overturned in the collision and three crewmen were injured.

The snowfall continued today in most of Minnesota, Wisconsin and Michigan. Rain was reported from the lower Mississippi valley northeastward through Tennessee, Kentucky and parts of Ohio to eastern Lake Erie. There was some snow and sleet through the south Atlantic states.

Elsewhere over the nation skies generally were fair.

## Much Prefer to Make Our Progress Without Wars

By Dewitt Mackenzie  
AP Foreign Affairs Analyst

Howard Blakeslee, my erudite colleague who is science editor for the Associated Press, likes to start an argument if he can, which accounts for his pausing at my desk to fling this challenge at me:

"We've been brought up on the thesis that the world is going to the dogs. That isn't true. The world is getting better."

"O. K.," I replied cautiously, "so it's getting better. And just what do you mean by that?"

Blakeslee had his answer ready, and I certainly put a different complexion on the global picture as generally viewed these days. In substance it is this:

## G.O.P. Endorses Studer Program

Emphasizing the need of Mayor Herb Studer for G. O. P. help in Sedalia, the city Republican convention meeting in the court house Saturday night unanimously adopted two resolutions offered by Chester L. Wolfe, chairman of the resolutions committee and members Carl Schrader, W. M. Johns, Glenn Kell and Carl Urban.

The resolutions endorsed "the fine, unselfish and outstanding work and the fearless, honest and progressive leadership of Mayor Studer the past year" and called attention of the people of Sedalia to "the partisan and selfish attitude and demeanor of the members of council," with an appeal to the public to support the Republican candidates for council "who have pledged their wholehearted support of the mayor and good government in Sedalia."

The Republicans also pledged continued support of Mayor Studer in accomplishing the objectives of his program.

## Found \$17,335 Cash in Home

Estate of Miss Kuesel Appraised At Over \$62,000

Value of the estate of the late Miss Anna Marie Kuesel, who died December 10, 1950 according to an appraisal filed recently, is a little more than \$62,000. Of this amount more than \$17,335.00 was in cash found at her home, 1309 West Third street.

Miss Kuesel was discovered dead in her home the morning of December 20 by neighbors who became alarmed when she was not seen about her house. At that time Chief of Police Edgar Neighbors, Dr. C. Gordon Stauffacher and W. H. Carl, a friend, made forced entry to the home.

**Search for False Teeth**

Checking to locate her false teeth, the three found in a dresser drawer \$961.20. Later when the three appraisers, E. P. Miller, Mrs. Frances L. Jenkins and W. D. Steele, went to the home they located \$16,355.44 in money in the mattress and around her bed. In a kitchen cupboard was \$15.50 and in an old purse, \$2.90.

Other than money, Miss Kuesel owned considerable real estate including her duplex home and the building at Second street and Ohio avenue which is occupied by the Mohnoray Furniture Co.

Miss Kuesel left five heirs—one full cousin and four second cousins.

contribute in numerous ways to progress. This is particularly true in the field of science.

Take the development of atomic energy, as a prime example. The wars and threats of wars in the past ten years have put us far ahead of the progress we normally would have achieved in this vital field. A whole new world is being opened up in this branch of science alone, and that is true not only of military developments but of ordinary progress.

The threats of war are giving us better airplanes. We are heading for atomic powered ships. Radio and radar are being improved to meet the exigencies of war.

## Denial From Rowe on Link With Ring

RFC Director Demands Charges Be Withdrawn

WASHINGTON, March 19—(P)—C. Edward Rowe testified today before the Senate subcommittee on the flag of Ireland of green, white and orange which was with the American flag on the wall back of the speakers' table.

Rowe gave his testimony to Senate investigators who have accused him and two other RFC directors of yielding to influence in making loans.

Rowe's story of his instructions from Mrs. Truman capped earlier testimony in which he denied he ever tried to get a fellow director, Walter L. Dunham, to resign and become "the goat" of the Senate investigation of the huge government lending agency.

Rowe told a Senate banking subcommittee it was true he had "suggested" to Dunham that he quit the RFC board, but he said it was only because Dunham had complained to him of poor health.

In a sometimes stormy session, Rowe demanded that the Senate group withdraw its charges linking him to an alleged influence ring with White House contacts.

Chairman Fulbright (D-Ark) retorted that the evidence recited by the senators was that Rowe himself used influence to get a loan for his own company before becoming an RFC director.

This was a \$300,000 loan to the Harrington and Richardson Arms Co., of Worcester, Mass., in which Rowe then was an officer and (Please turn to page 4, Column 6)

## St. Patrick's Banquet on Sunday Night

Thos. R. McGinnis Of St. Louis Was The Guest Speaker

"St. Patrick" was the appropriate subject chosen by Thomas R. McGinnis, prominent St. Louis lawyer, principal speaker Sunday evening at the annual St. Patrick's banquet held in St. Patrick's school hall.

Mr. McGinnis told of the life of St. Patrick stating that it was doubtful where he was born and when but that he lived during the fifth century. St. Patrick said, according to the speaker, that he did not find God until he was 16 years old and was taken to Ireland in slavery. He had such poor clothing and such little food that he prayed much of the time and finally during his slavery a vision appeared to him one night. The vision told him to go to the shore where he would find a ship. This he did and escaped. He was away from Ireland about 40 years but in that time had been in a monastery and when he returned, the speaker said, he sowed the seeds of Christianity which spread over Ireland. This Christianity is there today with the Irish people taking it with them wherever they go.

There is doubt as to St. Patrick's age, somewhere between 100 and 120 years of age, Mr. McGinnis said, but the date of his death was March 17, 493 and it is the date of his death that is celebrated each year by the Irish.

Jack Allgaier served as toastmaster and Rev. J. T. Nolan gave the invocation.

Jack McCloskey, master of ceremonies for the evening, introduced the speaker.

The program opened and closed with the singing of a group of Irish colleens. Joann Sedlak, Caroline Steffen, Martha Wieholt, Joan Horst, Patty Burlette, Eulalia Anton, Virginia Buso, Joyce Craig, Judy Craig, Eileen Bahner, Eleanor Morris, Betty Hula, Selma Colon, Harriet Schmitt and Patty Mulcahey. The opening songs were "It's a Great Day For the Irish" and "Top of the Mornin'" and the closing song was "Don't You Love to Dream of Dear Old Ireland?"

A program of dancing and readings was given by the talented young Irish. "The Lost Purses" reading by Eileen Bahner; "The Green Little Shamrock of Ireland" reading by Gloria Robb; "Lap dances" by Virginia Buso and Patricia Mulcahey; reading "See-Ing Things" by Richard Bowers; "De Colored Man," reading by James and Linda Wiesing and "Foolish Questions," group reading by Andy Wolff, Sheridan Bohon, Carolyn Wiemhoff, Ononette Fowler and Martha Berling.

**Talk on Ireland's Flag**

Father Nolan was then presented and gave a short talk on the flag of Ireland of green, white and orange which was with the American flag on the wall back of the speakers' table.

Many Irish have died for both flags, said Father Nolan. The flag, he said, was adopted by the Irish in 1916 at the time of the Irish rebellion against England and then for five years there was a severe penalty for anyone using the flag.

When the Irish rebelled again many lost their lives and their homes were burned, but in 1921 Ireland was given its freedom, he said, except for six counties in the north which are still under the domination of England. The green in the flag represents the 26 counties of south Ireland, Father Nolan said, the orange the six counties in north Ireland still held by England and the white is a symbol of peace, to establish peace between the two and bring them together for a united Ireland. This flag is over all the government buildings and public buildings in Ireland, the speaker said.

Special guests introduced were the Rev. A. J. Brunswick, pastor of Sacred Heart church; Mayor Herb Studer; Rev. Henry Balster, pastor of St. Joseph's church and Father DeAngelis of Tipton.

Decorations were in keeping with St. Patrick's Day in green and white with an arrangement of white snapdragons and carnations on the speakers' table.

Side of two were lighted green candles in two branch crystal candelabra. White gladioli and snapdragons were used on the piano and white candles were down the center of the tables. Green and white paper streamers and shamrocks were also used and favors were marshmallows. Candle holders with tiny green candles were at each plate.

The turkey banquet was served to more than 400 people by the women of St. Patrick's church.

**Close Check to be Kept on Prices**

COLUMBUS, O., March 19—(P)—Some 4,000 agents will be checking price violations by July 1, the nation's price chief said here yesterday.

Price Stabilizer Michael V. Di Salle told newsmen of plans to hire that many enforcement agents while building the OPS force from 3,874 to 16,000.

He promised that those who violate price regulations knowingly will be prosecuted, "and there will be no 'fix'."

But technical violations, when made the first time because regulations are not understood, will be overlooked, DiSalle said.

"We'll look askance at them if they make the same technical violation twice," he added.

### Comes Out Few Cents Short

ST. LOUIS, March 19—(P)—Lincoln Kilby, Vandalia, Mo., "man in the street" is on the last lap of his journey from England today.

He arrived here Saturday night and spent the week-end with a sister.

Asked how much money he had left, he dug into his pockets and pulled out 75 cents.

"I guess I'm about \$3 in the hole," he explained. The Vandalia Business and Professional Men's club put up \$1,308 for Kilby's trip to find out about British Socialism.

Kilby, a rural mail carrier, said he was impressed with the likableness of the British and by how much they are basically like Americans.

Beyond that Kilby wouldn't talk much about his two-month visit in England. He plans to spend the next several days going over his diary and a suitcase full of papers. He will give his report on the trip at the Vandalia Business club meeting March 29.

He was greeted here by his family and a delegation from the Vandalia business group, headed by R. G. Morris, club president and head of the Vandalia State bank.

Kilby said this was his first long separation from his wife in their 30 years of marriage.

## Accidents on Roads Increase

Sixteen Killed In This Area of Five Counties

A decided increase in accidents, injuries, property damage, and deaths on the highways in the five county area of Troop A, surrounding Pettis County has been experienced for the first two months of this year, according to a report by Captain O. L. Viets, commanding officer of Troop A. The entire troop area, including thirteen mid-western counties outside of cities of 10,000 or more population also shows an increase.

For the troop area, Captain Viets reports 369 accidents have been investigated by the patrol during the first two months, while for the corresponding period of 1950 there were 335 accidents. 246 persons have been injured and property damage has been estimated at \$182,751.

Sixteen persons have been killed to date, an increase of six over 1950.

In the five county area:

Property damage for the two months this year amounts to \$31,160 while in 1950 it was \$21,325.

The State Highway Patrol is appealing to motorists to be more careful and try to avoid accidents.

**Added Endeavor to Reach Quota for the Red Cross**

One solicitor for the Red Cross Drive called the Red Cross office Saturday and said: "I need \$7.00 to reach my quota and I'm not going to turn in my report until I get that \$7.00."

The same feeling probably prevails with many of the solicitors and it will be quite all right not to turn in the report but it is very urgent that a telephone call be made to the Red Cross office by each solicitor telling how much they have collected so far. The area report must be made Tuesday and is not showing any progress.

Solicitors are asked to cooperate that Pettis county may make a better showing. The money and report may be turned into the office later.

One woman solicitor was surprised when she went to one home to have a woman meet her at the door with a big handful of dimes. "I always save Roosevelt dimes," she explained, "for the Red Cross Drive and the March of Dimes."

Added to the places that have given 100 per cent are Ellis Dress Shop and the Public Library.

Mr. and Mrs. I. C. Evans, who were co-chairman of the Dresden township, reported today that the Dresden quota had been reached and exceeded.

### Teen-age Youth Admits Slaying

YUMA, Ariz., March 19—(P)—A teen age youth from the east has admitted slaying a railroad employe, robbing him and buying cowboy clothes with part of the loot.

Sixteen-year-old Peter Donald Saunders is charged with the first degree murder of Leonard Fenton, 40. He said he forged travelers' checks found in his victim's pockets, bought \$108 worth of western gear and got a job as a ranch hand.

The youth quit the job shortly because, he said, it didn't require horseback riding.

## Three Injured As Cars Collide

Accident Near The Country Club On Sunday

What started out as an innocent game of "car-tag" resulted in one of the cars figuring in an accident on highway 65, near the Sedalia Country club about 3:40 o'clock Sunday afternoon. Three persons suffered minor injuries, but the property damage to the two vehicles involved in the collision, was estimated at several hundred dollars.

Those who were injured were all riding in one of the "game cars," according to State Highway Patrol Sergeant William S. Barton. They were Miss Shirley Jo Wolfe, 15, daughter of Mr. and Mrs. J. E. Wolf, 1709 South Summit avenue; Miss Margaret Ann Hawkins, 14, daughter of Mr. and Mrs. A. L. Hawkins, 311 East Jackson and Donald Vickers, 17, 1513 East Tenth street.

The two girls suffered from shock and bruises and were taken to the Bothwell hospital by Dr. D. P. Dyer and Dr. D. R. Edwards. Vickers was treated by Dr. K. L. Holdren at his clinic for a laceration above the left eye.

According to Sergeant Barton, a 1941 Ford coach driven by Lloyd W. Pace, 20, in which the injured were riding, along with Barbara Wolf, a sister of Shirley Jo, and Laura Baldwin, 18, 905 East Thirteenth street, was headed south on highway 65, and a 1940 Chevrolet sedan, driven by Charles W. Rush, 32, route 2, Sedalia, was enroute north, when the cars collided. Rush was accompanied by Mrs. Mary Roberts, route 1.

It was reported a 1937 Chevrolet sedan driven by William Billy Gene Wooster, 19, 1219 South Osage avenue, had passed the Pace car going south and Pace then endeavored to catch up and pass Wooster.

Wooster came up behind two cars going at a moderate rate of speed and slowed down, but Pace coming up behind started around and then pulled back into the line of traffic, but the rear portion of his car didn't clear the center of the highway.

Rush reported that he was unable to turn out in time to miss the rear of the Pace automobile. The left front portion of the left side of the Chevrolet of Rush was damaged back to the front door and the left front wheel knocked back under the car. The left side of the Pace car from the door back was damaged and windows shattered.

Wooster turned his car around after the accident and picked up the Hawkins and Wolf girls and took them to the Hawkins home.

Mr. Hawkins then called the Gillespie and McLaughlin ambulances and had the girls taken to the Bothwell hospital. Vickers was taken to Dr. Holdren's clinic at Third street and Park avenue.

Both Wooster and Pace were told, according to Sergeant Barton, to appear before Magistrate W. W. Blain on Tuesday morning. Charges of careless and imprudent driving have been filed against them.

## Big Business Aids Communists

By Drew Pearson

(Copyright, 1951, By The Bell Syndicate, Inc.)

FRANKFORT—At the same time that the West Germans want more American troops to protect them against the threat of the Red army, a steady stream of strategic materials is rolling out of Germany to help arm that Red army.

This aid to Russia does not represent the real sentiment of the West German people or their new Bonn government. But it does represent the sell-both-sides-down-the-river attitude of the same industrialists who cozied up to Hitler and made his rearmament possible; also the same industrialists who now want to sabotage the Schuman plan for co-operative operation of the Ruhr iron and steel industry, the most peace-insuring proposal ever made for Europe.

Here are a few examples of how German big business is cutting its country's own throat by aiding the communists:

Up to May 10, 1950, all exports of German machinery were controlled by the Allied high commission. On that date, the Bonn government was given export control. And during the first 21 days after May 10, more ball bearings and more rubber compounds were sent to the Russian satellites than had been smuggled out in the previous five months. Also huge quantities of carbon black, precious nickel, lead, crude iron and pig iron were exported—much of it going to Communist Hungary. Shipments in June totaled twice as much as in May—even though the German government had agreed to ban them.

Finally the high commissioner, John J. McCloy, caught a shipment of American army trucks to Communist Hungary. Nine thousand surplus trucks had been acquired by Truck and Spare Motor Vehicles Ltd., for \$314 each. This was a legitimate sale by STEG, the agency which sells American army surplus. Truck Spare Motor Vehicle Ltd., turned around and sold 356 army trucks to Hungary, making the sale with an official O. K. from the German government, despite the fact that this was against the regulations surrounding the sale of U. S. property. Fortunately American troops on the German border got suspicious and stopped the truck shipment.

Meanwhile, Tell Beena of the National Machine Tool Builders association in Cleveland reports that machine tool plants in Western Germany, financed by the Marshall plan, are shipping vital machine tools to Russia and its satellites. "Tanks in North Korea," he said, "may have been made on machine tools produced by ECA money."

In Munich the American-published newspaper Neue Zeitung quoted the U. S. high commissioner for Bavaria, George Shuster, that the Ruhr industrialists were taking out insurance with the Communists party and that the coffers of the Communist party were filled with their money.

U. S. officials have called on Chancellor Adenauer to stop leaks of strategic material to Russia.

In the winter of 1945, as the Russians and American armies were advancing toward Berlin, I happened to be talking to Robert Patterson, the under secretary of war, when he remarked: "I hope the Red army gets there first and executes about 20,000 of Germany's top leaders. If we get there first we'll wait, get soft and sentimental, and then let them go scot free."

The other day the same Bob Patterson came to Germany in the pay of German industrialists to influence his former subordinate in the War department, McCloy, now high commissioner to Germany, and to undercut the Schuman plan. What the Ruhr steelman wanted was 100 per cent ownership of the captive coal mines, leaving almost no coal for the rest of Europe. It has been distribution of Ruhr iron and coal which has caused three major wars between France and Germany and which, for the first time in history, may now be settled under the Schuman plan whereby the West European countries co-operate in controlling the Ruhr. Patterson's lobbying mission, if successful, would have sown the seeds of war all over again.

In the end Patterson, who at heart is an idealist, seemed a little sorry he had made the trip. McCloy is siding firm against any further concessions to the big ironmasters of the Ruhr.

## Call Meeting On Convention

WASHINGTON, March 19—(AP)—The Republican national committee has called a meeting for May 11 and 12 in Tulsa, Okla., to decide the site and date for the party's presidential nominating convention in 1952.

This is six months earlier than usual, but Chairman Guy G. Robinson said it is necessary to arrange hotel accommodations far in advance this time.

A committee announcement said today six cities so far have indicated a desire to be hosts for the convention—Philadelphia, Atlantic City, Detroit, Chicago, San Francisco and Los Angeles.

The Democrats have yet to do any preliminary planning for their convention. But Chairman William E. Boyle, Jr., and Gabrielson have been conferring on the prospect of sharing convention hall expenses if the two parties meet in the same city.

The conventions usually are held in late June or July. Philadelphia had both conventions in 1948 and Chicago in 1944. GOP officials have indicated a central location like Chicago might be picked for 1952 to save transportation facilities in the present emergency.

However, cities coming up with the largest offers to pay convention expenses probably will get the inside track.

Mrs. L. E. Heffernan and Mrs. W. H. Highleyman.

The program will be "Contributions of the Huguenots to America," with Mrs. W. E. Terrill in charge.

## The Gold Mannequin

By Myles Connolly

COPYRIGHT 1951 BY NEA SERVICE, INC.

THE STORY: Tim Reese, a crippled veteran, has kept an exclusive town shop, "Jean Paul," in business with his designs. Without knowing his value, Tim was sent at his task by his infatuation with Jean Roland, an ex-model who is half-owner of the firm, who leads Tim to believe she cares for him, although her interest is purely business. In the wings of this pseudo-love scene is a farm girl who really cares for Tim. Then Tim discovers that he will be able to walk again. When he can, he goes to New York to surprise Jean. He is received at the dress establishment by a Miss Major, who tells him Jean is attending the Corbin Ball, an exclusive fashion function at which the "Dress of the Year" will be chosen. Tim goes to the Empire, where the ball is to be held, and stands outside watching the guests arrive.

### XIX

A HEAVILY coated, gold-braided doorman, who had moved down the sidewalk to wave away a parked taxicab, came upon Tim Reese.

"Kind of chilly, isn't it, Mister?" the doorman, seeing the canes in the snow, was sympathetic.

"In more ways than one," Tim grinned over his turned-over coat collar. "I feel like The Little Match Girl."

The doorman chuckled. "You look more like Stella Dallas." He was well-spoken, as befitted the chief doorman of the Empire. "But I'm going to have to be the heavy. The ladies are wearing a lot of fancy hardware tonight, and it behooves me to ask you to amble along."

"Guess there's no chance of me ambling along into the Main Ballroom, is there?"

The doorman gave Tim a quick, sharp look. "Lost your mind, or something?"

"Probably," Tim could not resist trying out his joke again. "It's my first night out since June, 1944."

The doorman looked down at the canes and up at Tim's face.

"Polio?"

Tim shook his head. "Fireworks"

## Big Seven May Quit Oklahoma Because of TV

### Representatives of Conference Schools Vote to Cancel All Athletic Contests

NORMAN, Okla., March 19.—(P)—Faculty representatives of Big Seven conference schools voted by telephone to cancel athletic contests with the University of Oklahoma if it decides or is compelled to permit live television of its football games.

Dr. George L. Cross, president said today.

Cross said in a statement: "This means that the university might find it impossible financially to participate in intercollegiate athletics next season if the bill concerning television now before the (state) senate becomes a law."

"Without the Big Seven schools there would not be sufficient contests to support a season's activity in any sport."

In addition, it is likely that other schools outside the Big Seven also would cancel scheduled contests."

The conference vote comes after a bill was introduced in the Oklahoma senate which would compel the university to televise its football games next fall.

NCAA Bars T. V.

Under an NCAA rule voted last year, the member schools are barred from live televising of home games.

The bill, introduced and guided by Oklahoma senator George Miskovsky, has become one of the hottest issues of the session. It was due for a vote today.

The justice department has been requested by Miskovsky to investigate the NCAA for possible violations of the anti-trust laws because of its ban.

Miskovsky has demanded that the state senator call the "NCAA's bluff."

Fight For Live TV

Rep. J. D. McCarty, Oklahoma City, said today he would continue the fight for live television by introducing a companion bill in the house.

Cross and Oklahoma football coach Bud Wilkinson last appeared before a senate committee considering the television bill. They said they were in favor of television but asked the NCAA be allowed to work out its own solution. A meeting has been called by the NCAA to reconsider its stand.

Walter Kraft, Oklahoma's faculty representative to the Big Seven, said he was informed today by Reeves that the vote to cancel television had been unanimous with Oklahoma was unanimous.

lem before the world's diplomats and military leaders.

The Chinese appeared to have given up their last main military base south of the parallel—Chuncheon, eight miles below the line in central Korea.

Reports to eighth army headquarters also indicated the Reds had abandoned well-prepared defenses along the Hongcheon river, south of Chuncheon.

The eighth army said Monday mid-afternoon there had been no contact worthy of name with Reds in 72 hours.

Action in Air

But there was flashing air action.

Twenty-four Shooting Stars, flying under cover of 12 F-86 Sabre jets, fire bombed, rocketed and strafed the airfield at Sinuiju on the Yalu river boundary between Manchuria and Korea. The attack was within sight of the red air base at Antung, just across the river in Manchuria.

Several Russian-made MIG-15 jets took off from the Antung airfield but did not attack the American planes.

Twelve more F-80s joined the flight attacking Sinuiju. The 36 Shooting Stars then pounded rail targets near Sinuiju and Huichon and destroyed three locomotives and 50 railroad cars.

U. S. far east Air forces B-29s dropped 22 tons of bombs Sunday on Hungnam, port of evacuation for allied troops last December.

The superforts piled 150 tons of explosives Monday on a Red supply center nine miles northwest of the east coast port of Wonsan.

Wonsan itself was bombed by the U. S. battleship Missouri. It was the 31st consecutive day Wonsan had been shelled.

An undischarged number of Communist planes dropped flares for the second successive night Sunday over American positions near Hongchon on the central front.

The flares lit up targets for Communist artillery and mortar barrages.

Lt. Gen. Matthew B. Ridgeway, commander of the eighth army, messaged his U. N. officers and troops that they had won the winter campaign, now drawing to a close.

But he warned that they face possibly greater challenges in the future.

His headquarters announced that the allies inflicted only 555 enemy casualties Sunday, lightest number in weeks.

Says Version Varied

The bitter exchange with Tobey came after the senator said O'Dwyer's version of Reles' death varied from that of a previous witness, Frank C. Bals, a former deputy police commissioner.

O'Dwyer defended Bals' record as a police officer, but Tobey described Bals as "a flat tire" whom O'Dwyer was attempting to defend.

O'Dwyer, obviously angry, declared he was entitled to a respectful hearing. A brief recess was called, then the former mayor returned with his story of the underworld code system.

O'Dwyer was Brooklyn district attorney at the time of Reles' death. He is now ambassador to Mexico.

Tobey quoted Bals as saying that Reles intended to enter the fifth floor window and then go downstairs and tell his guards "peek a-boo."

Autos Damaged In a Collision

A collision of two cars at 1:05 o'clock Sunday morning at Seventh street and Kentucky avenue, did damage to the two vehicles involved, and occupants escaped injury.

The cars, a 1948 Kaiser sedan, driven by Wayne E. Alexander, 215 West Tenth street was going south on Kentucky avenue, and a 1950 Nash sedan driven by George W. Duell, 41 1608 South Stewart avenue, was enroute west.

The left front fender, hood and radiator were damaged on the Kaiser while the hood, front bumper and gravel guard on the Nash were smashed.

Police conducted an investigation.

State Officers Of Jaycees Met

Officers of the Missouri State Junior Chamber of Commerce met in the Magnolia room of the Hotel Bothwell Sunday. The president of the Missouri State Chamber of Commerce, Stan Peterson, of Springfield, presided.

Policies of the state Jaycees were discussed and plans were formulated for the state convention which will be held April 20, 21 and 22, in St. Louis.

The Sedalia Junior Chamber of Commerce was host to the officers and Robert Wall president of the Sedalia chamber, was present. Mr. Wall will be a candidate for the vice presidency of the state organization and will be voted upon at the state convention in April.

Allot 85,694,000 Acres For Corn

WASHINGTON, March 19.—(P)—The Agriculture Department reported today that farmers agree to plant 85,694,000 acres to corn this year. This would be an increase of 1.6 per cent over last year's plantings of 84,370,000 acres.

The department had urged a corn acreage of at least 90,000,000 acres to meet increasing feed needs of cattlemen, hog producers, dairymen and poultrymen.

Government defense spending has greatly boosted consumer demand for livestock products.

Three Escape From The Prison Farm

MACON, Mo., March 19.—(P)—Two of the three convicts who escaped from the Missouri penitentiary farms Sunday were captured today at nearby Beaver, Mo.

They were Charles Hatcher, 21, Mayville, Mo., and Darold Stroud, 26, Timbo, Ark., who walked away from prison farm No. 2 in Callaway county.

The highway patrol said the two stole a 1937 car at Hartsburg, but abandoned it west of here. A foreman at the Bianchi Hereford ranch, west of here, spotted them walking from one of the barns this morning. He reported it to the patrol, which caught the men at Beaver. The ranch foreman said the convicts apparently had spent the night in the barn.

JEFFERSON CITY, March 19.—(P)—Three Missouri penitentiary convicts escaped yesterday last night, the state highway patrol reported.

Charles Hatcher, 22, serving three years for a Holt county conviction of forgery and Donald Stroud, 26, sentenced to three years for a Buchanan county auto theft, walked away from Farm No. 2 in Callaway county sometime yesterday.

The patrol said a house nearby was reported broken into. A rifle and a small bag were listed as missing from the home. The patrol used bloodhounds in a vain effort to find the fugitive's trail.

Arrual Hatcher, 42, serving five years on a Jefferson county forgery conviction, slipped away from the prison sawmill in southeastern Callaway county sometime during the night, the patrol report said.

### Extension Club Meets

Mrs. W. J. Harrington and Mrs. J. B. Ellison were hostesses to the Bowling Green home extension club at the Harrington home near Beaman, Thursday, March 15th. The Easter theme was Paramount in the devotionals. Mrs. L. E. Morris read the Easter story from Luke. Mrs. J. W. McLaughlin sang "In Joseph's Lovely Garden." Mrs. Harrington led the group in prayer.

A pre-Easter feature of the Salem Aid was a daily thank offering of some members. This offering was collected to be applied to help in building out buildings at the church. Mrs. McLaughlin, the president conducted the routine business which included reports from the committee in charge of plays to be given March 20 at the Beaman hall. The committee in charge of the rummage sale is Mrs. J. B. Ellison, Mrs. Frank Summers and Mrs. W. J. Harrington.

A collection for the Red Cross was then taken.

Visitors were Mrs. Elizabeth Jacob, Mrs. J. G. Watkins and Mrs. Jack Alfrey of Sedalia. Three members were given the birthday greeting in songs: Mrs. Ellison, Mrs. L. E. Morris and Mrs. McLaughlin. Four large birthday cakes were served.

### Average Man Is Home--Broke

ST. LOUIS, March 19—(P)—Lincoln Kilby has proved that his qualities as the "man in the street" He arrived here from England broke.

The Vandalia, Mo., rural mail carrier, who conducted a survey of British socialism, pulled in by plane in a driving rain.

Asked how much money he had left, he dug into his pockets and fished out a handful of silver, totaling 76 cents.

"I guess I'm about three dollars in the hole," he explained. "I had to cash a \$4 check to pay my hotel bill in New York and this is all I've got left."

Kilby told reporters he was saving the report of his British findings for the next meeting of the Vandalia Business and Professional Men's Club which put up \$1,308 to finance the trip.

He spent almost two months in England. This afternoon he said he had great admiration for the British, whose impressions he recorded in a diary and a suitcase full of papers.

Kilby was greeted by his family and a delegation from Vandalia, about 100 miles northwest of St. Louis.

The postman-ambassador said this was the first real separation from his wife to whom he has been married for 30 years. Other members of his family on hand to greet him included his daughter, Shirley, a teacher at New Cambria, Mo., his son, Roger, a sophomore at William Jewell College, Liberty, Mo.; and his sisters, Mrs. Ben Barrett of Bowling Green, Mo., and Mrs. Allen Potter, Ladue.

Jim Perry told the council members about a thrift plan the state office has recommended. An announcement was made that there will be no baseball tournament this year.

Miss Lillian Watkins told of a sixth year of clothing that can be taken as a project this year. Local camp this year will be July 24 to 27.

T. T. Martin from the state extension office was a special guest. He used as a topic "Keeping Youth In 4-H." Following his address the group had a discussion.

**Carl Schoenfeld Killed Saturday Night Near MoPac Depot**

Carl Schoenfeld, 250 South Quincy avenue, was instantly killed Saturday night at 10:58 o'clock when a west bound Missouri Pacific train, number 19, smashed into the Hamlin's wrecker which he was driving south on Ohio avenue at the MoPac tracks.

The wrecker was dragged by the train from Ohio avenue, where it was hit, to a half block from Moniteau avenue. According to railroad officials the train, which is both a freight and passenger, was traveling at a rate of speed not exceeding 25 miles per hour, but its heavy load made it impossible to stop in a short distance.

The truck was completely demolished, and the east water reticulated tank of the Missouri Pacific fill tank of the Missouri Pacific railroad company was badly damaged by the truck which traveled the entire distance in a side-way position. The back wheels of the wrecker were knocked off when

Carl Schoenfeld had the foresight to provide for an accident before it happened. He spent only 5¢ a week for a St. Louis STAR-TIMES' Subscribers' Service Accident Insurance policy — so his widow is shown here receiving an \$1,100.00 benefit check from a STAR-TIMES representative. Of this amount \$100.00 was an extra benefit because policies
